

# Nautilus, Inc. Reports Results for the Second Quarter 2018

July 30, 2018

### Second Quarter Retail Revenue Increased 5.7% to \$39.2 Million

### Company Raises Full Year 2018 Revenue Guidance Range and Reiterates Operating Income Guidance

VANCOUVER, Wash.--(BUSINESS WIRE)--Jul. 30, 2018-- Nautilus, Inc. (NYSE: NLS) today reported its unaudited operating results for the second quarter and six months ended June 30, 2018. The Company raised its full year 2018 revenue guidance range and reiterated full year operating income guidance.

Net sales for the second quarter of 2018 totaled \$75.5 million, down 2.0% compared to \$77.0 million in the same quarter of 2017. The decrease in net sales was driven by lower Direct segment sales, down 11.0%, reflecting expected declines in Bowflex TreadClimber<sup>®</sup> sales, and weaker than projected Bowflex Max Trainer<sup>®</sup> sales. Strong performance in the Retail segment, up 5.7% from the prior year quarter, was driven by double-digit growth in the mass retail channel, partially offset by lower sales in the specialty commercial channel. Royalty revenue in the second quarter of 2018 was \$1.5 million, compared to \$0.8 million for the same quarter of last year, reflecting payments related to a new royalty agreement, with future sales-based royalties that are not expected to be material. For the first six months of 2018, net sales were \$190.3 million, flat to prior year. Gross margins for the second quarter of 2018 totaled 44.6% versus 49.8% for the same period last year, reflecting higher product costs across all channels, coupled with a shift in segment revenue mix from Direct to Retail.

Operating income for the second quarter of 2018 was \$1.2 million, compared to \$3.8 million in the same period last year, as lower net sales and gross margins resulted in a decline in gross profit dollars, partially offset by improved management of operating expenses. Operating expenses for the second quarter were 43.0% of revenue versus 44.8% in the same period last year. For the first six months of 2018, operating income was \$11.9 million, compared to \$16.5 million in the same period last year.

Income from continuing operations for the second quarter of 2018 was \$1.0 million, or \$0.03 per diluted share, compared to \$2.6 million, or \$0.08 per diluted share, for the same period last year. Income from continuing operations for the first six months of 2018 was \$9.1 million, or \$0.30 per diluted share, compared to income from continuing operations of \$10.8 million, or \$0.35 per diluted share for the same period last year. EBITDA from continuing operations for the second quarter of 2018 totaled \$3.3 million compared to \$6.2 million in the prior year period.

At June 30, 2018, cash and marketable securities increased to \$85.9 million and debt decreased to \$40.0 million, compared to \$85.2 million and \$48.0 million, respectively, at December 31, 2017.

Bruce M. Cazenave, Chief Executive Officer, stated, "Our overall performance was in-line with our expectations for the second quarter, historically the seasonally slowest quarter of the year. We continued to see solid momentum in our Retail segment during the second quarter, which achieved 5.7% year-over-year growth, driven by double-digit expansion in our mass retail channel. Our Direct segment remained challenged in the second quarter by the continued phase-down of the mature TreadClimber<sup>®</sup> and softer than expected results from Max Trainer<sup>®</sup>. We expect strong growth in the Direct segment in the back-half of 2018 based on new product launches and the introduction of our new digital platform, which will be incorporated onto an upgraded and refreshed Max Trainer product line."

Mr. Cazenave continued, "Our year is unfolding as expected and key initiatives such as new product launches and fall season order plans for retail customers are tracking well. These positive factors give us the confidence to increase our full year revenue guidance range by \$3 million. We are now expecting full year revenues in 2018 to be in the range of \$42 million to \$440 million and are reiterating operating income to be in the range of \$42 million to \$45 million. The Company has also taken pricing actions and cost improvement measures to help mitigate the impact of inflationary product cost pressures and unfavorable foreign exchange trends that negatively impacted gross margins in the first half of 2018. New product introductions slated for the third quarter include two models of the Bowflex LateralX<sup>®</sup> trainer in the Direct segment and the Octane MTX Max Trainer<sup>®</sup>, the commercial version of our popular Max Trainer line designed for the specialty and commercial channels of distribution. In addition, we plan to launch upgraded versions of the Max Trainer that will support our exciting new digital subscription platform in our Direct segment during the fourth quarter. Our Retail segment is expected to continue to perform well in the back-half of this year and achieve growth in each quarter of 2018 versus the comparable quarters in 2017. Retail growth in the back-half of this year is anticipated to come from expanded product offerings across our Octane, Nautilus, and Bowflex brands, which will be sold in commercial, traditional retail, and e-commerce channels this fall. We are also pleased with the progress to date on several of the key strategic initiatives we outlined earlier in the year. Specifically, we have ramped up investments in the international channel, and key logistics and systems integration initiatives have been completed. While there is much we still need to do to accomplish the acceleration in future top line and bottom line growth, we believe we are on track to deliver on our stated objectives

## Segment Results

Net sales for the Direct segment were \$34.8 million in the second quarter of 2018, a decrease of 11.0% over the comparable period last year due to a decline in Max Trainer<sup>®</sup> sales, coupled with the expected decline in TreadClimber<sup>®</sup> sales, partially offset by the growth of new products, including the Bowflex Results Series<sup>TM</sup> treadmills and ellipticals. Operating income for the Direct segment was \$0.7 million for the second quarter of 2018, compared to \$2.5 million in the second quarter of last year. Operating income was negatively impacted by the decline in sales and gross margins, partially offset by reduced media spending and a decrease in consumer financing fees. Gross margin for the Direct segment declined by 370 basis points resulting from a shift in product mix and higher product costs, due to rising material costs and unfavorable changes in foreign currency exchange rates.

Net sales for the Retail segment were \$39.2 million in the second quarter of 2018, an increase of 5.7% when compared to \$37.1 million in the second quarter last year. The increase reflected robust growth across a variety of product lines, primarily in the mass retail channel. Operating income for the Retail segment was \$3.6 million for the second quarter of 2018 compared to \$6.1 million in the second quarter of last year. The decrease in Retail segment operating income was primarily due to the lower gross margin rate. Retail segment gross margin was 29.1% in the second quarter of 2018, compared to 34.5% in the same quarter of the prior year, reflecting increased product costs due to unfavorable changes in foreign currency exchange rates.

### **Non-GAAP Presentation**

In addition to disclosing results determined in accordance with GAAP, Nautilus has presented EBITDA from continuing operations, a non-GAAP financial measure, for the three and six months ended June 30, 2018 and 2017.

The Company defines EBITDA from continuing operations as its income from continuing operations, adjusted to exclude interest expense (income), income tax expense of continuing operations, and depreciation and amortization expense. The Company uses EBITDA from continuing operations in evaluating its operating results and for financial and operational decision-making purposes such as budgeting and establishing operational goals. The Company believes that EBITDA from continuing operations helps identify underlying trends in its business that could otherwise be masked by the effect of the items that are excluded from EBITDA from continuing operations and enhances the overall understanding of the Company's past performance and future prospects. The Company presents EBITDA from continuing operations as a complement to results provided in accordance with GAAP, and these results should not be regarded as a substitute for GAAP. The Company strongly encourages you to review all of its financial statements and publicly-filed reports in their entirety and to not rely on any single financial measure.

For a quantitative reconciliation of our non-GAAP financial measures to the most comparable GAAP measures, see "Reconciliation of Non-GAAP Financial Measures" included with this release.
